SUMMARY

Over two years of experience developing web applications and a keen interest in interface design and user experience. I adapt quickly to new challenges and am always learning.

I'm passionate about coding and following best practices to deliver practical, high-quality solutions.

WORK EXPERIENCE

FULL-STACK WEB DEVELOPER

(January 2024 - Present)

Bettergy S.L. | Málaga

- Delivered the first feature within two weeks of joining, integrating it into the production build and receiving positive feedback from the senior developer and QA.
- Improved application performance across multiple projects: refactored data-fetch logic and reduced API response times by over 90%, and optimized bundle size via code splitting, lowering initial load by 40%.
- Led migration of one key project from Svelte to SvelteKit, restructuring the codebase, implementing layout routing, and leveraging server-side rendering to boost Lighthouse performance score from 60 to 100.
- Redesigned UI/UX for two major web applications, achieving an estimated 15% increase in user retention and a 20% increase in average session time.
- Followed a testing approach using Vitest to create unit and end-to-end tests for critical components, reducing production incidents.
- Maintained frontend, backend, and DevOps after team turnover, managing deployments with Docker and Kubernetes, implementing a standardized commit workflow for new team members, and mentoring them in projects, code, and development practices.

FULL-STACK WEB DEVELOPER (INTERSHIP)

(March 2023 - June 2023)

Uniklinik Köln | Cologne

- Developed a full-stack application for hospital staff, enabling profiles with publications and achievements to foster collaboration.
- Learned project technologies and requirements quickly, contributing to development tasks early on.
- Collaborated on frontend and backend work with the team, ensuring consistent code quality and a cohesive user experience.
- Designed and implemented an intuitive interface, improving overall usability and reducing user support needs.
- Delivered the project ahead of schedule, allowing extra time for testing and performance improvements.

EDUCATION AND CERTIFICATION

UX DESIGN: UX/UI USER EXPERIENCE + FIGMA 2025

(2025)

Udemy

B2 FIRST CERFICATION

(2024)

Cambridge University Press & Assessment

HIGHER TECHNICIAN IN DEVELOPMENT OF WEB APPLICATIONS

(2020 - 2023)

CPIFP Alan Turing

PROFESSIONAL SKILLS

Typescript	Svelte	TailwindCSS	Python	Django	MongoDB	MySQL
React	Git	Figma	Scrum	Docker	Adaptability	Proactive

PROFESSIONAL OBJECTIVES / INTERESTS

Frontend Development	React	UIX Design
